14 FOR FAMILIES WITH CHILDREN:

SIAM PARK

The best water park in Europe, with multiple attractions for children. A kilometer-long net of slides, a playground on 180,000 square meters of naturally landscaped terrain. A white sandy, 350-meter long beach, a rippling pool, a lazy river or Jungle Snake, and Mekong Rapids are just some of the activities. Within the park, you will find restaurants and souvenir stores. This is a great place to spend a fun day in the sun!

LORO PARK

A popular zoological garden with Animal Embassy environmental certification. It includes botanical gardens, aquariums, and shows featuring animals. The park is home to a wide variety of animals living among tropical palms and exotic vegetation surrounding the park's stunning Thai architecture. Younger guests will love their experience at Kinderland. This attraction is reminiscent of an African treehouse village, where children can climb and enjoy the jungle while balancing on suspended bridges and sliding down a serpentine slide. This is a great place to spend the day with family and friends.
